Looking for a Junior front-end developer position

Have extensive experience working in a team. I actively work with git. I have experience in creating a small project from scratch to full readiness - hosting web pages on AWS. I have experience with Linux, npm, Docker, and Nginx

I am looking for a team where I can realize my potential. I am motivated to learn new technologies and want to work for victory. I am willing to consider vacancies or internships. I am looking for a remote job, but I am ready to work in the office for the first time (2-3 months)

English - A2/B1. I can read the documentation, and I don't have a language barrier, but I think for a long time before I speak, I improve it with the teacher

### WORK EXPERIENCE

#### **Front-end developer**

freelance / from 08.2022

I have a ready-order - static multi-page bilingual site using HTML5/CSS3, Bootstrap4, JavaScript, and JQuery.

I can write a simple react application. I can use the API (get, post), and connect the database (firebase) to React.

I can work on a time tracker and quickly learn new technologies.

### COURSES

07.2022-08.2022

Front-end development (ITVDN)

10.2022-now

ReactJS - Way of the Samurai  
(IT-kamasutra)

11.2022-now

JavaScript courses (Udemy)
