I have extensive experience working in a team (10 years). I am currently working on my pet-project using react.
I have experience in creating a small project from scratch to full readiness - hosting web pages on AWS. I have experience with Linux, npm, Docker

I am looking for a team where I can realize my potential. I am motivated to learn new technologies and want to work for victory. I am willing to consider vacancies or internships.

WORK EXPERIENCE

Staff photographer/Photographer
freelance / 07.2019-09.2021

I worked with technology, came up with ideas, and processed photos. Learned to work with Photoshop.
While working as a photographer, I learned time management, and responsibility and developed the skill of independent study.

Front-end developer
freelance / from - 08.2022

I have a ready-order - static multi-page bilingual site using HTML5/CSS3, Bootstrap4, JavaScript, JQuery.
I can work on a time tracker and quickly learn new technologies.

ACHIEVEMENTS

I hosted a web page using S3 Bucket, CloudFront, and Route53. This allows you to host a page for free.
